St. Petersburg, 8/2 1860

My dear Nathaniel,

I heard after your charming
letter, from mother, that you
are both all right now after
this disagreeable influence
in London. - Your success
always growing! I am sure
your success in America
will be as great as at
the old Europe. - People
is every where the same
and a real talent will

always be appreciated.

I just came from a concert of Chamber Music given by Filoti and Tsaye.

The latter gave me a great pleasure in a Sonata by Bach (C major) and the Ciaccona by Vitali with Cyren accompaniment.

What a splendid love and so warm! A few days ago he played the Bröck, a minor

III

and the Brahms Concerto which I did not like so much; but still, a real master!

I was with pleasure our Photo, taken in Brighton with the Spinlows. - An American

people of mine brought me the "American Review". Poor Mrs. Grace Cummings because we all, that they were obliged to leave Petersburg. Is it not a pity? such a charming people.

There are a few new pupils; but American boys;
shies changes, from sudden; very talented.

The little Poliohu is pale & cannot get her
day, & Revital; he was wonderful.

And now my dear child, good health and good
chance for America; play only as you can; that
will do!

My best kisses for you and
cousin.

I hope either and you,

you will send me a good and true friend.

Dr. Cues
